

## FINANCIAL AND COMMERCIAL

## MARKET WAS UNSETTLED.

New York, June 29.—Today's stock market manifested pronounced unsteadiness despite predictions in financial circles that federal action would soon be taken to terminate existing and prospective labor disturbances.

The foreign situation also occasioned further unsteadiness, developments in Ireland and Germany finding clearer reflection in the increased heaviness of exchanges. The German rate fell to an unprecedented level and Central and Eastern European remittances were heavily weak.

Despite the greater aspects of the railway industrial situation, transactions were the most stable feature of the session, but extreme gains of one to almost three points in some of the dividend-paying shares were much impaired in the later operations.

Oils were the weakest feature throughout, their prolonged advance making them most susceptible to pressure. Conditions in that industry continued favorable, however, indications pointing to yet another advance in crude and refined petroleum.

Mexican Petroleum moved in relative quiet, although again moving in a range of eight points and closing at 17 1/2. Loss of four points in the American averaged one point decline, but reversals in some of the domestic oils, notably Standard Oil of California and Produce and Refiners, were much more severe.

Steele, equipment, motor and kindred stocks were sluggish the greater part of the session, the few advances at moderate gains including Crucible, American Locomotive and Studebaker, the latter gaining one point net. Coppers, tobacco and food specialties finished mainly by at irregular declines. Total sales amounted to 700,000 shares.

While local banks continued to withdraw funds to meet July payments, money rates relaxed perceptibly. Call loans gradually eased from the opening quotation of 4 3/4 per cent. in the last hour and short time loans were more plentiful.

Recoveries from lowest quotations in leading exchanges were made before the close of business. Sterling rallied a large fraction, extreme reactions in French, Italian and Belgian bills were partly and in some instances fully retrieved and variable gains over the preceding day were made by Dutch and Scandinavian rates, but Greek remittances remained very heavy.

## STOCKS.

The following is a summary of the transactions on the New York Stock Exchange up to 3 P. M.:

## TOP DRESSING DEMONSTRATIONS ARE SOON TO BE OUT

The nine top dressing demonstrations staged by the New London county farm bureau in different parts of this county will be out and weighed during the next two or three weeks. These demonstrations were started a year ago to point out the value of using commercial fertilizers to supplement the use of manure in top dressing hay land. The average increase due to the use of a high grade fertilizer mixture was over 1,200 pounds per acre last year. When manure was used this difference was under 1,000 pounds.

Top dressing demonstrations are being run this year by the following men, any of whom will be glad at any time to show visitors the demonstrations and point out the different plots: Clayton Miller, Colchester; M. H. Bartlett, Griswold; J. L. Raymond, Lyme; Ellisworth Gray, North Stonington; A. W. Lillibridge, Norwich; McClintock Bros., Preston; I. D. Gifford, Salem; H. D. Critcherson, Stonington; S. D. Morgan, Waterford.

The same three plots are being used this year as were used last year in each demonstration. One plot received a dressing of manure at the rate of 10 tons per acre, with 400 pounds of acid phosphate. A second plot received a fertilizer mixture made up of 125 pounds sulphate ammonia or 150 pounds nitrate of soda, 150 pounds acid phosphate and 30 pounds of potash. A third plot received no fertilizer at all.

## POLISH FALCONS START DRIVE HERE FOR FUND

A drive by the Polish Falcons Alliance of America which was started throughout the United States on June 5 has got under way in this city by the local nest of Falcons, No. 131. The closing date is July 30th at which time it is hoped that their required allotment will be easily raised.

The money raised by the drive will be used for the following purposes: 1, welfare and educational work; 2, sanitary and social work training; 3, better citizenship; 4, athletic instruction; 5, children summer camps; 6, evening classes for elementary training and neglected education among the Polish residents of America.

The Polish Falcons Alliance of America is one of the largest Polish organizations in the world.

## TWO LIQUOR CASES FOR U. S. DISTRICT COURT

Two liquor cases have been presented before U. S. Commissioner Earl Mathewson this week. Alexander Kalko of Jewett City was charged with having 200 gallons of mash, a 20-gallon still, and a gallon and one-half of moonshine. Evidence was sufficient and he was held under bonds of \$500 for the federal district court.

Anelme Bernier of Willimantic was held under the same amount of bonds for packing a bottle of whiskey on his hip, and will appear later before the district court.

## CROPS ON ALMSHOUSE FARM ARE GROWING WELL

Weather which has been poor for vacationists and travelers during the past few weeks has been fine for crop growers. James B. Chapman, superintendent of the town farm, has seven acres under cultivation and crops look fine. On Wednesday two bushels of peas were picked at the farm and served for meals at the farm. Mr. Chapman expects to raise a crop of 25 bushels. Of the 1,000 heads of cabbage planted the inmates will soon be enjoying them, the crop being a good one.

People passing by on Asylum street have noticed the attractive garden of grain and potatoes on the lot adjoining, and record harvests are expected here, as in past years under the management of Mr. Chapman. In fact the farm is producing this year about everything a New England farmer can raise on his land.

Besides the farm work Mr. Chapman and his helpers are turning out about 30 pounds of butter weekly, and are laid down about 150 pounds. For the swine on the farm is now in the 10 pigs on the farm are a fine fat too rapidly and have been put on reduced rations.

The work at the town farm by Mr. Chapman and his helpers in turning out such fine crops, goes to show what can be done on Connecticut soil if those willing to put energy and time into their work.

## Liquor Raids in New London

Federal Prohibition Agents Joseph Fitzpatrick and Robert Church conducted two successful liquor raids Wednesday evening in New London, one on the store at 424 Bank street, formerly run by Luigi Colangelo, and now alleged to be run by R. Deluca; and one on the home of Joseph Poretta, Belden street.

At the Bank street place a quart bottle containing a small amount of whiskey and one and one-half quarts of wine were found. At the Belden street residence a 20-gallon still, 150 pounds of mash, two quarts of Canadian Club whiskey, one gallon of moonshine and five gallons of moonshine connection were uncovered.

The accused will be presented before United States Commissioner Frank L. McGuire as soon as the necessary papers have been made out.

## Engagement Announced

Word has been received in this city of the engagement of Miss Laura Hill, the daughter of Mrs. Rose M. Hill and the late Fred L. Hill, formerly of this city, now residents of Great Falls, Montana. Miss Hill is soon to marry Kenneth James Nelson. The announcement was made at a dinner party given in honor of Miss Hill by her mother, at their home, 1108 Fifth avenue, North. The wedding is scheduled for the early part of July.

## For Too Early Fourth Celebrating

One young man from Norwich Thursday was before the police court Thursday morning and learned to his sorrow that producing this year about everything a New England farmer can raise on his land. Besides the farm work Mr. Chapman and his helpers are turning out about 30 pounds of butter weekly, and are laid down about 150 pounds. For the swine on the farm is now in the 10 pigs on the farm are a fine fat too rapidly and have been put on reduced rations.

The work at the town farm by Mr. Chapman and his helpers in turning out such fine crops, goes to show what can be done on Connecticut soil if those willing to put energy and time into their work.
